

Showcasing you!

Our comms person has been thinking about social media a lot recently... mainly because she has felt she hasn't had much to say apart from buy our beers! So, she's had her thinking cap on and decided she wants to do a bit focusing on you, as our customers. Be prepared for a tag across our social media channels as she works her way through the list and highlights our wonderful brews that you have on offer. If you have anything specific you would like her to mention as well then please email hannah@goddardsbrewery.com and she will do her best to include. Please note, mentions will be in no particular order and she will get around to everyone... but it may take a little bit of time. Feel free to give us a tag too and she will share across our platforms.

Back to five days a week!

Now everyone seems to be open again, we are pleased to announce we can go back to delivering five days per week for our Isle of Wight customers. So, if you are looking for a delivery on any weekday, please let us have your orders by 9.30am on the day you would like your delivery. For mainland customers, we will be across at least once a fortnight on a Thursday (subject to demand).

Planet lager on tap

With the summer weather starting to creep through the clouds we have suddenly seen a big uptake in establishments across the island wanting Planet Lager on tap for their customers. With installs now in place across the island, including at Cowes Ale House, Old Village Inn, Steve's Bar at Bembridge Harbour, Castle Haven, Wishing Well, George Hotel and the Chine Inn, there are plenty of places now to get your hands on a clean, refreshing pint of Isle of Wight born and brewed lager on the island. It just so happens that it's gluten free and vegan friendly with no compromise on taste!

Now a thing you may not know. Our Planet Lager is available in 30litre Keykegs so that you can enjoy a pint directly from the tap. And it isn't just Planet Lager that is available in Keykegs as we are now bringing some of our other beers to our Keykeg line. But don't worry, we will continue with our normal casks and pins but we just wanted to make you aware of what is on offer!

Our 30 litre (52pint) KeyKegs are just one way we are ensuring we are doing our little bit for the environment as they are recyclable, whilst maintaining our fantastic quality. There are even additional benefits of them having a lifespan of up to 12 months before tapping; an increased shelf life after tapping of up to a month; and they are light and easy to handle.

If you would like to find out more then please do get in touch via the usual means.

Back on the guest ale slot

Well it was meant to happen at the beginning of the year but then Covid happened (again) but we are pleased to say Fuggle-Dee-Dum will be doing its travels across the UK again as part of the Wetherspoons guest ale slot!

Something new...

We are pleased to announce that we are starting a little partnership with Boojum & Snark. We are keen at Goddards to try out some new brews, so we are teaming up with Boojum & Snark and allowing our brewer Josh to use their premises and pilot brewing kit to develop some new beers to tantalise your taste buds. The beers will then be available in Boojum & Snark's taproom with some also making it to our own 9gallon casks and being available across the island and our region on the mainland! Keep your eyes peeled!
